

Dear FCC Commissioners & Staff:

My name is Judy Sellaras and I am writing regarding your reconsideration of the rules that require telephone companies to provide ISPs access to the public switched phone network. Removal of these requirements would be a grave mistake.

I cannot get services from the large network telephone carriers and I can get from my local internet service provider. I do not want you to force me to use one of the large internet service providers.

Please continue to protect the ISPs access to the public telephone networks, thereby protecting the rights of millions of consumers like me.

Sincerely,

Judy Sellaras
